"We had about four hours and 30 minutes to do this." The technique is not nearly as easy as it might seem; in order to trigger the warning signal, drivers must know where each tire is, and they have to hold the phone up when they shift their car into park mode to turn them on. That means drivers must also know about the position of the brake pedals, and turn off the air conditioning before parking in their normal position. 44ad931eb4
